1 Q When you say what you had learned from your
2 software teams, what are you referring to?

3 A They, you know, put cars on the road with
4 very different sensors.

5 (Reporter clarification.)

6 With different sensors. They evaluated a
7 lot of different possibilities for sensors that --
8 you know, they drove like millions of miles of
9 self-driving, and so from that, you know, like from
10 a lot of different scenarios that I have seen on the 10:05:21
11 road. One of the spec they gave us was kind of the
12 resolution that we need to achieve for the -- on the
13 car.

13 support my like application for promotion in Google.

14 Q If -- I want to -- start over.

15 I'd like you to turn to the second 10:07:14
16 paragraph of the first page, please.

17 A Second paragraph of the first page.

18 Mm-hmm.

19 Q You start out by saying:

20 "In 2011, the first Google self-driving 10:07:24

23 Do you see that?
